# MOBILE PRINTING
IS HERE!

Print from any device

Here's how to get started:

1 Scan the code to download the app.
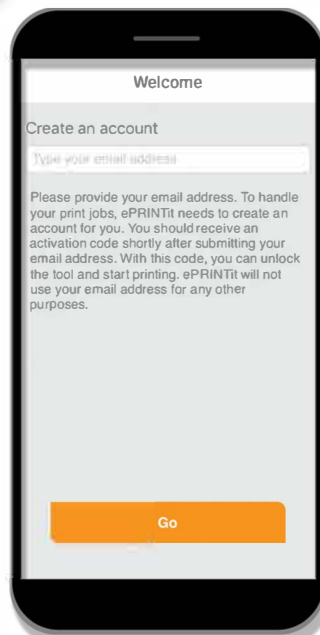

Download on the **App Store**
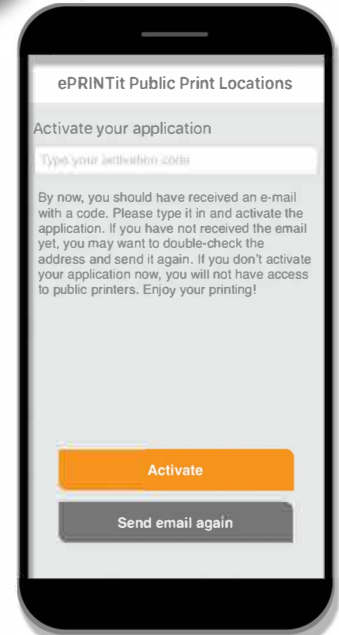

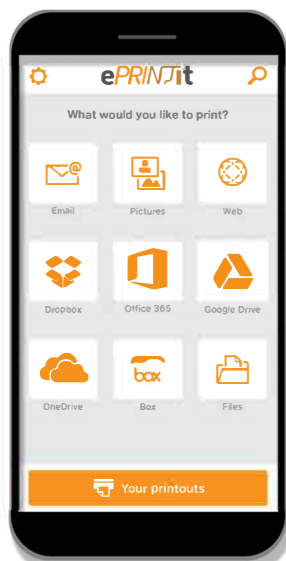

GET IT ON **Google Play**

2 Enter your email address.

Welcome

Create an account

Type your email address

Please provide your email address. To handle your print jobs, ePRINTit needs to create an account for you. You should receive an activation code shortly after submitting your email address. With this code, you can unlock the tool and start printing. ePRINTit will not use your email address for any other purposes.

Go

3 Enter the activation code emailed to you.

ePRINTit Public Print Locations

Activate your application

Type your activation code

By now, you should have received an e-mail with a code. Please type it in and activate the application. If you have not received the email yet, you may want to double-check the address and send it again. If you don't activate your application now, you will not have access to public printers. Enjoy your printing!

Activate

Send email again

4 Choose from several options to print. Options may require authorization to access your files.
